

The **public institution, Centre de Musiques Amplifiées – Rockhal**, is committed to delivering world-class live music experiences and maintaining the technical excellence that makes them possible. Behind every unforgettable show is a team shaping light and image to turn a stage into a moment audiences never forget.

Play a key role in bringing our productions to life and join our technical team as

Lighting & Video Technician

PERMANENT, FULL-TIME CONTRACT

As our Lighting & Video Technician, you'll be hands-on at the heart of every production — designing and running the lighting and video that bring our stages to life, show after show.

Key Responsibilities

- Operate and implement the CMA's stage lighting infrastructure during shows, ensuring seamless execution.
- Design, create, and implement lighting plans for diverse productions.
- Plan and execute technical setups for events, including personnel coordination and lighting/video equipment management.
- Supervise and guide lighting installation and teardown crews.
- Assist visiting technicians, stage managers, artists, and external production teams.
- Produce video content, including recording and editing.
- Maintain lighting, video, rigging, and stage equipment to ensure optimal performance and safety.
- Support planning of upcoming lighting investments and new lighting/video projects for both stage and building infrastructure.
- Contribute to the training and development of CMA apprentices.

Profile

- Proven training and at least 10 years' professional experience in lighting and video technologies.
- Solid knowledge of stage equipment and extensive experience with modern lighting control systems.
- Proficiency with lighting design and simulation software (e.g. CAD, Vectorworks).
- Background in electrical systems and rigging.
- Experience supervising and managing artistic productions and live events.
- Experience working at height.
- Skills in digital networks or other areas of stage production.
- Responsible, proactive, and able to adapt to changing production needs, with the ability to lead and mentor junior technicians and apprentices.
- Fluency in Luxembourg's usual languages and an excellent command of English.

Ready to shape what our audiences see and feel? If you love translating a creative vision into precise, reliable lighting and video, and bringing your craft to our stages, we look forward to receiving your application!

Please send your cover letter, CV, and copies of your diplomas to jobs@rockhal.lu, with the subject line "Lighting & Video Technician 202606". Application deadline: 30 June 2026.
